

MUSCULOSKELETAL CLINIC

Do You Suffer From A Musculoskeletal (MSK) Problem?

Common MSK conditions can cause pain in the parts of your body that help you when moving, such as your muscles, bones, and joints.

Examples include:

- *Back/Neck pain*
- *Shoulder/Elbow pain*
- *Hip/Knee pain*
- *Ankle/Foot pain*
- *Muscle strain*
- *Frozen shoulder*
- *Trapped nerves*
- *Sports injuries*
- *Tennis/Golfers elbow*
- *Whiplash injury*

Our service lets you book with an experienced musculoskeletal specialist (MSK), who has advanced expertise in the treatment and management of such conditions, and without having to wait to see your GP first.

What Happens In A Consultation?

Our MSK specialist will discuss your history and perform a thorough examination. They will assess, diagnose your condition and provide advice and management, all of which will be tailored to you.

Ability To Refer

Our MSK specialist is part of the practice medical team and can request any necessary referrals or further tests after your assessment, such as:

- *Blood tests, X-rays, medication*
- *Local physiotherapy, podiatry services or a specialist pain clinic*
- *Local orthopaedic / rheumatology services*
- *Minor surgery at Dr Jefferies and Partners*

How Do I Book An Appointment?

You can make an appointment with reception in person or by phone on:
